Thank you for buying our Silent Witness Camera.

IMPORTANT INFORMATION

If the camera has not been used for a long time it may take longer to boot up due to the initial conditioning of the super Capacitor. This is normal and not a fault. Please allow up to 1 minute for the initial start up.

If hardwiring the camera use only the PARKMINI kit available from Silent Witness.

- Do not attempt to use the camera before you have read the manual. It contains information about the correct use of the camera and the SD card
- The manual and software are loaded on the SD card after an initial power up. If the camera has not been used the SD card will be blank. You can also download the manual from www.silentwitness.co.uk

There are video guides on the camera at www.silentwitness.co.uk
