

The Market Leader in Vehicle Dash Cameras are now available to you.

Silent Witness is a Global manufacturer of Dash Cameras. At Silent Witness we focus on design, manufacture and supply to maintain our market leading position. In the last 5 years, Silent Witness has rapidly grown its reputation in the market for high quality products and excellent customer service. We have sold in excess of one million products nationally and have invested heavily in product development and the latest Dash Camera technology.

Our goal is to grow the Silent Witness brand to its full potential and become a globally recognised brand in quality Dash Cameras, which is where we need your help to achieve this goal.

We are looking for dedicated, proactive, partners and stockist's to help us expand the Silent Witness brand while increasing your own sales to a worldwide audience!

Why do consumers love our Silent Witness Dash Cameras?

A Silent Witness Dash Camera quickly pays for itself and becomes a very valuable tool, as evidence in a vehicle crash or road incident. Silent Witness products can speed up the claims process with the insurance company and/or the police, allowing the claim to be resolved smoothly and efficiently.

Silent Witness users have peace of mind when commuting. Silent Witness Dash Cameras continuously record every journey. If a collision occurs the Dash Cam's G-Sensor will move up to a minute's worth of video evidence in to a separate folder on the micro SD card, providing vital evidence just when you need it.

Our Silent Witness products are extremely user friendly, HD video footage is recorded directly on to a Micro SD card. When you want to view the footage you simply take out the Micro SD card and insert it into your PC.

Who Buys Silent Witness Dash Cameras?

Historically, the majority of Silent Witness product have been bought by car enthusiasts and fleet vehicle managers. Due to new technology, an increase in awareness and lower purchase costs Silent Witness Dash Cams are now affordable to all.

We have identified huge potential growth in the "social and domestic commuter" market, the person making a daily commute who wants reliability, peace of mind and protection from false claims against them.

The consumer's investment in a vehicle recording system, provides vital evidence to their insurance company, allowing them to make potential savings on insurance policies and protection to their no claims bonus, when wrongly accused.
