Silent Witness is a Global manufacturer of Dash Cameras. At Silent Witness we focus on design, manufacture and supply to maintain our market leading position. In the last 5 years, Silent Witness has rapidly grown its reputation in the market for high quality products and excellent customer service. We have sold in excess of one million products nationally and have invested heavily in product development and the latest Dash Camera technology.

Silent Witness – Dash Cameras, you can depend on. A Silent Witness Dash Camera quickly pays for itself and becomes a very valuable tool, as evidence in a vehicle crash or road incident.

Silent Witness products can speed up the claims process with the insurance company and/or the police, allowing the claim to be resolved smoothly and efficiently.

Silent Witness users have peace of mind when commuting. Silent Witness Dash Cameras continuously record every journey. If a collision occurs the Dash Cam’s G-Sensor will move up to a minute’s worth of video evidence in to a separate folder on the micro SD card, providing vital evidence just when you need it.

Our Silent Witness products are extremely user friendly, HD video footage is recorded directly on to a Micro SD card. When you want to view the footage you simply take out the Micro SD card and insert it into your PC.

Plug & Play fitting kits:
All our Silent Witness Dash Cameras come complete with a Plug & Play connector cable to quickly install your dash camera into your vehicle. (With the exception of the SW2300 dash camera which has a hardwire kit included with it) Plug & Play Dash Cam fitting allows easy removal of the Dash Camera so it can be used in multiple vehicles or quickly removed if the vehicle is to be sold on.

Hardwire fitting kits:
All Silent Witness Dash Cameras can be permanently hardwired into your vehicle by yourself (Some technical ability is required) or by purchasing our nationwide fitting service, in store or online. Technical manuals and fitting instructions are included in the box of every Silent Witness Dash Camera and further technical advice can be found at silentwitness.co.uk

If you no longer feel confident or have changed your mind about self installation simply visit our website 24/7 and search for “Nationwide Fitting Service”.
